INDEPENDENT AUDITOR'S REPORT

To the Honorable Members of the
Board of Supervisors
County of Henry, Virginia

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of County of Henry, Virginia, as of and for the year ended June 30, 2010, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of County of Henry, Virginia's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards and specifications require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Henry, Virginia, as of June 30, 2010, and the respective changes in financial position, and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated January 21, 2011, on our consideration of the County of Henry, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 1 through 9 and 44 through 56 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Henry, Virginia's financial statements as a whole. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U. S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the financial statements. The combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The management of the County of Henry, Virginia presents the following discussion and analysis as an overview of the County of Henry, Virginia's financial activities for the fiscal year ending June 30, 2010. We encourage readers to read this discussion and analysis in conjunction with the County's financial statements.

Financial Highlights for Fiscal Year 2010

Highlights for Government-Wide Financial Statements

- At the close of the fiscal year, the assets of the County, excluding its Component Units, exceeded its liabilities by \$46,676,057. Of this amount, \$21,580,247 is unrestricted and may be used to meet the government's ongoing obligations to citizens and creditors.
- For the fiscal year, general and program revenues of the County's governmental activities were \$47,216,210 and expenses amounted to \$45,844,869. The County's total net assets increased \$1,371,341.

Highlights for Fund Financial Statements

- As of June 30, 2010, the County's Governmental Funds reported combined fund balances of \$23,061,111, an increase of \$1,457,881 in comparison with the prior year. All of the combined fund balances are available to meet the County's current and future needs.
- The General Fund reported a fund balance of \$22,520,924, an increase of \$1,288,048 from June 30, 2009.

OVERVIEW OF THE FINANCIAL STATEMENTS

This Comprehensive Annual Financial Report consists of two sections: financial and compliance.

- The ***financial section*** has three component parts - management's discussion and analysis (this section), the basic financial statements which include government-wide financial statements and fund financial statements, and required supplementary information.
- The ***compliance section*** is required under the provisions of *Governmental Auditing Standards* and, in some cases, the Single Audit Act of 1984 and the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*.

Government-Wide Financial Statements

The government-wide financial statements report information about the County as a whole using accounting methods similar to those found in the private sector. They also report the County's net assets and how they have changed during the fiscal year.

The first government-wide statement - the Statement of Net Assets - presents information on all of the County's assets and liabilities. The difference between assets and liabilities, net assets, can be used as one way to measure the County's financial health, or financial condition. Over time, increases or decreases in the net assets can be one indicator of whether the County's financial condition is improving or deteriorating. Other nonfinancial factors will also need to be considered, such as changes in the County's property tax base and the condition of County facilities.

The second statement - the Statement of Activities - presents information using the accrual basis accounting method and shows how the County's net assets changed during the fiscal year. All of the current year's revenues and expenses are shown in the Statement of Activities, regardless of when cash is received or paid.

The government-wide statements are divided into the following two categories:

Governmental Activities: Most of the County's basic services are reported here, including general government administration; judicial administration; public safety; public works; health and welfare; education; parks, recreation, and cultural; and community development. These activities are financed primarily by property taxes, other local taxes, and Federal and State grants. Governmental Funds are included in the governmental activities.

Discretely Presented Component Units: The County has three component units: the School Board, Industrial Development Authority, and the Henry-Martinsville Social Services. While the School System and the Industrial Development Authority are legally separate entities, the County is financially accountable and provides operating and capital funding to these component units. The County is the fiscal agent for the Henry-Martinsville Social Services, which is supported by funds from the Federal government, Commonwealth of Virginia, County General Fund, and the City of Martinsville, Virginia. Financial information for the component units are reported separately from the financial information presented for the primary government. In January 2011, the County will become fiscal agent of the Fieldale Sanitary District and this entity will be included as a component unit in future financial statements.

Fund Financial Statements

Traditional users of government financial statements will find the fund financial statements more familiar. These statements provide more detailed information about the County's most significant funds. Funds are used to ensure compliance with finance-related legal requirements and are used to keep track of specific sources of revenue and expenses for particular purposes. The County has three kinds of funds:

Governmental Funds - Most of the County's basic services are included in Governmental Funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances remaining at year-end that are available for spending. The Governmental Funds financial statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the County's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information is provided with the fund's financial statements to explain the relationship (or differences). The General Fund is the main operating account of the County and, therefore, the largest of the Governmental Funds.

The County has five major funds because they all have legally adopted budgets. These funds are the General, Comprehensive Services Act, E-911 Central Dispatch, Law Library, and Capital Projects.

Proprietary Funds - Proprietary Funds, which consist of Enterprise Funds, operate in a manner similar to private business enterprises in which costs are recovered primarily through a user charge. Proprietary Fund financial statements provide both long and short-term financial information. The County has no proprietary funds at this time.

Fiduciary Funds - Fiduciary Funds are used to account for resources held by the County for the benefit of parties outside the government. Fiduciary Funds are not reflected in the government-wide statements because the funds are not available to support the County's programs. The County's Fiduciary Funds consist of Agency Funds. The funds are used to account for monies received, held, and disbursed on behalf of the Special Welfare Fund, Seizure Fund, Jail Inmate Fund, and Streetscape Foundation. The County maintains the following fiduciary funds:

Special Welfare Fund – The Special Welfare Fund is used to reimburse the Comprehensive Service Act Fund, State Agencies, and others for expenses incurred on behalf of Henry-Martinsville Social Services welfare clients. Income is derived primarily from the Social Security Administration and other local organizations on behalf of the Social Services' clients.

Seizure Fund – The Seizure Fund is maintained by the Sheriff's Department and it holds funds collected from various arrests made by the Department.

Jail Inmate Fund – This fund is comprised of cash on inmates of the Henry County Jail at the time of their arrest or contributions to them from their family members. These funds can only be used for the health and welfare of specific County inmates.

Gateway Streetscape Foundation, Inc. – This fund is used to account for the funds of a local nonprofit organization whose purpose is to improve the community's aesthetic value by planting flowers and trees on major roadways.

OPEB Trust Fund – This fund is comprised of the money held in trust to fund post-retiree benefits of health insurance for the County, the School Board, and Henry-Martinsville Social Services.

FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

As of June 30, 2010, the County's Governmental Funds reported a combined ending fund balance of \$23,061,111, an increase of \$1,457,881 in comparison with the prior year. All of this is available for spending at the government's discretion (unreserved/undesignated fund balance).

The General Fund is the main operating fund of the County. At the end of the current fiscal year, the General Fund had an unreserved fund balance of \$16,872,862. The General Fund's liquidity can be measured by comparing both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 36.9 percent of total fund expenditures.

- The General Fund contributed operating funds to finance the component units as follows: \$17,064,188 School Board operations; \$326,569 to finance the Industrial Development Authority; and \$552,326 to the Social Services Board.

1 Organization and Nature of Operations

Narrative Profile

The County of Henry, Virginia (the "County") has a population of approximately 57,930 living within an area of 382 square miles. The County is located in the foothills of the Blue Ridge Mountains, in the southern Piedmont region of Virginia. The borders are shared with Patrick County to the west, Franklin County to the north, Pittsylvania County to the east, and the North Carolina line to the south.

The County was named for Patrick Henry, who lived there from 1780 to 1784. They originally were part of Pittsylvania County, but then went on their own in 1777.

Reporting Entity

The County of Henry, Virginia (the "County") is governed under the County Administration-Board of Supervisors form of government. The County engages in a comprehensive range of municipal services, including general government administration, public safety and administration of justice, education, health, welfare, housing and human service programs, transportation and environmental services, planning, community development and recreation, cultural, library, and historic activities.

2 Summary of Significant Accounting Policies

The financial statements of the County of Henry, Virginia and its component units have been prepared in conformity with the specifications promulgated by the Auditor of Public Accounts (APA) of the Commonwealth of Virginia, and the accounting principles generally accepted in the United States of America as specified by the Governmental Accounting Standards Board (GASB). The more significant of the County's accounting policies are described below:

A. Financial Reporting Entity

The County follows GASB Statement No. 34, *Basic Financial Statements – Management's Discussion and Analysis – for State and Local Governments*. GASB Statement No. 34 adds the following components to the financial statements:

- Management's Discussion and Analysis: A narrative introduction and analytical overview of the County's financial activities. This analysis is similar to the analysis the private sector provides in their annual reports.
- Government-Wide Financial Statements: These include the financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities (such as cash and accounts payable) but also capital assets and long-term liabilities (such as buildings and infrastructure, including bridges and roads, and general obligation debt). Accrual accounting also reports all of the revenues and cost of providing services each year, not just those received or paid in the current year or soon thereafter. The government-wide statements include the Statement of Net Assets and the Statement of Activities.

- Statement of Net Assets: The Statement of Net Assets displays the financial position of the primary government (government) and its discretely presented component units. Governments report all capital assets, including infrastructure, in the government-wide Statement of Net Assets and report depreciation expense – the cost of “using up” capital assets – in the Statement of Activities. The net assets of a government will be broken down into three categories: 1) invested in capital assets, net of related debt; 2) restricted; and 3) unrestricted.
- Statement of Activities: The Statement of Activities reports expenses and revenues in a format that focuses on the cost of each of the government’s functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).
- Budgetary Comparison Schedules: Demonstrating compliance with the legally adopted budget is an important component of a government’s accountability to the public. Many citizens participate in the process of establishing the annual operating budgets of state and local governments and have a keen interest in following the actual financial progress of their governments over the course of the year. The County and many other governments revise their original budgets over the course of the year for a variety of reasons.

As required by the accounting principles generally accepted in the United States, these financial statements present the primary government and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the government’s operations and, therefore, data from these units are combined with data of the primary government. The County has no component units that meet the requirements for blending. The discretely presented component units, on the other hand, are reported in a separate column in the government-wide statements to emphasize they are legally separate from the primary government. Each discretely presented component unit has a June 30 fiscal year-end.

B. Government-Wide and Fund Accounting Financial Statements

The basic financial statements include both government-wide (based on the County as a whole) and fund accounting financial statements. While the previous reporting model emphasized fund types (the total of all funds of a particular type), in the new reporting model the focus is on either the County as a whole or major individual funds (within the fund financial statements). The focus is on both the County as a whole and the fund accounting financial statements, including the major individual funds of the governmental and business-type categories, as well as the Fiduciary Funds (by category), and the Component Units. Both the government-wide and fund accounting financial statements (within the basic financial statements) categorize primary activities as either governmental or business-type. In the government-wide Statement of Net Assets, the governmental activities columns (a) are presented on a consolidated basis, and (b) are reflected, on a full accrual, economic resource basis, which incorporates long-term assets and receivables as well as long-term debt and obligations. Each presentation provides valuable information that can be analyzed and compared (between years and between governments) to enhance the usefulness of the information. The County generally first uses restricted assets for expenses incurred for which both restricted and unrestricted assets are available. The County may defer the use of restricted assets based on a review of the specific transaction.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) that are otherwise being supported by general government revenues (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function, and 2) grants and contributions that are restricted to meeting the operation or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported as general revenues. The County does not allocate indirect expenses. The operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants.

Proprietary Fund operating revenues consist of charges for services and related revenues. Nonoperating revenues consist of contributions, grants, investment earnings, and other revenues not directly derived from the providing of services.

In the fund financial statements, financial transactions and accounts of the County are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The fund statements are presented on a current financial resource and modified accrual basis of accounting.

This is the manner in which these funds are normally budgeted. Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements governmental column, a reconciliation is presented which briefly explains the adjustment necessary to reconcile the fund financial statements to the governmental column of the government-wide financial statements.

The County applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989 unless these pronouncements conflict with or contradict GASB pronouncements.

The County's Fiduciary Funds are presented in the fund financial statements by type (agency). Since by definition, these assets are being held for the benefit of a third party (other local governments, private parties, etc.) and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements. The following is a brief description of the specific funds used by the County in fiscal year 2010:

1. Governmental Funds

Governmental Funds are those through which most governmental functions typically are financed. Each fund is considered a major fund because each one has a legally adopted budget. The individual Governmental Funds are:

a. *General Fund*

The General Fund is the primary operating fund of the County and accounts for all revenues and expenditures applicable to the general operations of the County which are not accounted for in other funds. Revenues are derived primarily from property and other local taxes, licenses, permits, charges for services, use of money and property, and intergovernmental grants. The General Fund is considered a major fund for financial reporting purposes. A significant part of the General Fund's revenue is transferred to other funds and component units, principally to finance the operations of the County's Public Schools.

b. *Comprehensive Services Act Fund*

The Comprehensive Services Act Fund accounts for revenue derived from the Commonwealth of Virginia for the care of the localities' special needs children. This special revenue fund is considered a major governmental fund for reporting purposes.

c. *E-911 Central Dispatch Fund*

The E-911 Central Dispatch Fund accounts for the financial transactions associated with the operation of the County's 911 Emergency Services Center. Revenues are primarily derived from the consumers' E-911 telephone tax and reimbursements from the City of Martinsville, the State Compensation Board and Virginia Wireless Board. This special revenue fund is considered a major governmental fund for reporting purposes.

d. *Law Library Fund*

The Law Library Fund accounts for revenue received from other funds for the use of the library. This special revenue fund is considered a major governmental fund for reporting purposes.

e. *Capital Projects Fund*

The Capital Projects Fund accounts for all financial resources used for the acquisition or construction of major capital facilities. This fund is considered a major governmental fund for reporting purposes.

2. *Proprietary Fund*

The County has no proprietary funds at this time. However, the Component Unit – IDA Fund is accounted for as a proprietary fund.

3. *Fiduciary Funds*

Fiduciary Funds are used to account for assets held by the County in a trustee capacity or as an agent for individuals, private organizations, and other governments. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operation. The Special Welfare Fund is used to account for funds held for the benefit of children under the County's care. The Jail Inmate Fund accounts for funds received and disbursed for the benefit of the jail's inmates. The Gateway Streetscape Foundation, Inc. accounts for the funds of a local nonprofit organization whose purpose is to improve the community's

aesthetic value by planting flowers and trees on major roadways. The OPEB Trust Fund holds funds for postemployment retiree benefits.

C. Discretely Presented Component Units

Henry County School Board (the "School Board") is organized as an independently governed school system for operating the public schools in the County. Citizens of the County elect school board members. The School Board is financially dependent on appropriations by the County Board of Supervisors for current operations, with any surplus funds returned to the County annually. In addition, major capital improvements are financed by long-term debt issued by the County. In accordance with requirements of the Auditor of Public Accounts of the Commonwealth of Virginia, the School Board is considered to be a major component unit of the County. The government-wide statements are shown on the Statement of Net Assets and the Statement of Activities, and the School Board governmental fund combining statements are shown in the Other Supplementary Information section.

The Industrial Development Authority of Henry County, Virginia (the "IDA") operates as an enterprise activity by assisting local industry with bond financing. The IDA is a legally separate organization; however, the Board of Supervisors of the County appoints all of the IDA's Board, and the County is legally obligated for the debts of the IDA. The IDA is presented as a discretely presented component unit for reporting purposes. The government-wide statements are shown on the Statement of Net Assets and the Statement of Activities and the governmental fund statements are shown in the Other Supplementary Information section.

The Henry-Martinsville Social Services Board (the "HMSS") operates the Department of Social Services for both the County and the City. This joint entity was established June 1, 1997. Of the nine board members, the County appoints six. The County is financially accountable for HMSS because it appoints a majority of the board members and because the County is legally obligated to finance the deficits of, and provide financial support to, the Board. The County and the City have an agreement in which the City will reimburse the County for their share of administrative, operating, and maintenance costs that are unreimbursed by state or federal grants. The government-wide statements are shown on the Statement of Net Assets and the Statement of Activities, and the governmental fund statements are shown in the Other Supplementary Information section. These entities are collectively included and referred to as the "County."

Beginning in January 2011, the County will become the fiscal agent for the Fieldale Sanitary District. As a result, the District will be a new component unit for fiscal year 2011.

D. Related Organizations

The primary function of Henry County Public Service Authority (the "HCPSA") is to provide water and sewer services to areas of the County. The HCPSA Board of Directors approves its own budget and maintains oversight of all programs. Most of the funding for HCPSA comes from state and federal grants as well as from charges for services. The County provides some financial assistance, but HCPSA is not financially dependent on the County. Each member of the Board of Supervisors appoints one board member of the HCPSA from the members of their district. While not a component unit of the County, HCPSA is considered to be a related organization since the County has determinable ongoing financial interests in or responsibilities for HCPSA. The County contributed \$406,800 to the Authority for fire hydrant rental during the year.

E. Basis of Accounting

The government-wide Statements of Net Assets and Statement of Activities are accounted for using the economic resources measurement focus and the accrual basis of accounting. With this measurement focus, all assets and all liabilities associated with the operation of these activities are included on the Statement of Net Assets.

The Statement of Fiduciary Assets and Liabilities is presented on the accrual basis of accounting. Under this method of accounting, revenues are recognized when earned and expenses are recorded when liabilities are incurred without regard to receipt or disbursement of cash.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet in the funds statements. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

The fund financial statements of the General, Comprehensive Services Act, E-911 Central Dispatch, Law Library, and Capital Projects funds are maintained and reported on the modified accrual basis of accounting. Under this method of accounting, revenues are recognized in the period in which they become measurable and available. With respect to real and personal property tax revenues and other local taxes, the term "available" is limited to collections within sixty days after the fiscal year-end. Levies made prior to the fiscal year-end but which are not available are deferred. Investment income is recorded as earned. Federal and State reimbursement-type grants are recorded as revenue when related eligible expenditures are incurred. Expenditures are recorded when the fund liability is incurred.

F. Encumbrances

Encumbrance accounting, the recording of purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriations, is employed as an extension of formal budgetary integration in the General, Comprehensive Services Act, E-911 Central Dispatch, Law Library, and Capital Projects funds. Encumbrances which are carried over to the subsequent year are recorded as a designation of fund balance.

G. Cash and Cash Equivalents

The County's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original or purchased maturities of three months or less from the date of acquisition.

H. Allowance for Uncollectible Accounts

The County calculates its allowance based on historical data. The allowance amounted to approximately \$2,220,393 at June 30, 2010 and is comprised solely of property taxes.

The IDA calculated an allowance of \$839,939 at June 30, 2010 based on the amount determined to be collectible.

The other component units' accounts receivable are considered fully collectible, and, therefore, an allowance for uncollectible accounts is not applicable to those receivables.

I. Land and Building – Held for Sale

The IDA has land and building that are held for resale to potential industries in the County. The assets are recorded at cost. Periodically, incidental rent is received for the use of these facilities.

J. Capital Assets

Capital outlays are recorded as expenditures of the General, Comprehensive Services Act, E-911 Central Dispatch, Law Library, and Capital Projects funds and as assets in the government-wide financial statements to the extent the County's capitalization thresholds are met. The capitalization threshold for capitalizing capital assets is \$5,000 and \$100,000 for building additions. All capital assets are valued at historical cost or estimated historical cost if actual cost is not available. Donated capital assets are valued at their estimated fair market value on the date donated. Depreciation is recorded on general capital assets on a government-wide basis.

In the fund financial statements, maintenance, repairs, and minor equipment costs are charged to operations when incurred. Expenditures that meet the County's capitalization policy and materially change capacities or extend useful lives are capitalized in the government-wide financial statements. Upon sale or retirement of land, buildings, or equipment, the cost and related accumulated depreciation, if applicable, are eliminated from the respective accounts, and any resulting gain or loss is included in current year's operations.

K. Compensated Absences and Other Employee Benefits

Expenditures for compensated absences, hospitalization and workers' compensation insurance in governmental funds are recorded when the obligations are paid. The current portions are not recorded as liabilities in governmental funds since these will not be liquidated with expendable available financial resources. The liability for compensated absences and other employee benefits is shown on the statement of net assets as part of long-term liabilities.

Compensated Absences

County employees earn vacation based on length of service and sick leave at the rate of one day per month. Twenty-five percent of the amount for unused sick leave is paid for upon termination. All accumulated unused vacation is paid upon termination.

Group Hospitalization

All permanent employees of the County, including elected officials and their staff, are eligible to participate in the County's group insurance program. The County contributes the entire premium for active participating employees.

Other Postemployment Benefits

All permanent employees of the County, with 15 years of service, are eligible to continue their hospitalization and group life insurance after retiring until reaching age 65. The County does not contribute to the cost of this insurance.

L. Long-Term Debt

For governmental fund types, bond premiums or discounts as well as issuance costs are recognized during the current period. Bond proceeds are reported as other financing sources net of the applicable premium or discount. Issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures.

M. Fund Balance

Reservations of fund balance represent amounts that are not appropriable or are legally segregated for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Reservations of Fund Balance

Except for those required to comply with accounting standards, any reservations and designations of the General Fund balance reflect a Board of Supervisors action in the context of adoption of the County's budget.

Encumbrances

These fund balances have been reserved for goods and services encumbered or ordered, before the end of the fiscal year, for which delivery of goods and services have not been made prior to the close of the fiscal year.

Approved Capital Projects

These balances are reserved for capital projects that the Board of Supervisors has already approved.

3 Deposits and Investments

Deposits

All cash of the County and its component units is maintained in accounts collateralized in accordance with the Virginia Security for Public Deposits Act, Section 2.2-4400 *et seq.* of the *Code of Virginia* (the "Code") or covered by Federal Depository Insurance.

Investments

Statutes authorize local governments and other public bodies to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes; banker's acceptances, repurchase agreements, the State Treasurer's Local Government Investment Pool (LGIP), and the Virginia State Treasurer's Non-Arbitrage Program (SNAP).

The County has invested bond proceeds subject to rebate of arbitrage earnings in SNAP. SNAP is an open-end management investment company registered with the SEC designed to assist local governments in complying with the arbitrage rebate requirements of the Tax Reform Act of 1986. This program provides comprehensive investment management, accounting, and arbitrage rebate calculation services for proceeds of general obligation and revenue tax-exempt financing of Virginia counties, cities, and towns.

Interest Rate Risk

At year end, the County is only invested in SNAP, which has a dollar weighted average portfolio maturity of 90 days and money market funds which are readily available.

Custodial Credit Risk

As required by the Code of Virginia, all security holdings with maturities over 30 days may not be held in safekeeping with the "counterparty" to the investment transaction. As of June 30, all of the County's investments are held in a bank's trust department in the County's name by the County's designated custodian. All investment activity during the year was in securities of the type held at year end.

The above items are reflected in the statements as follows:

Credit Risk

State statute requires that obligations of the Commonwealth of Virginia and its political subdivisions have a debt rating of at least AA by Standard & Poor's (S&P) or equivalent by Moody's Investors Service (Moody's). Repurchase agreements are collateralized by Treasury or Agency obligations of which the market value is at least 102 percent of the purchase price of the agreement. Commercial paper must be issued by an entity incorporated in the U.S. and rated at least A-1 by S&P and P-1 by Moody's. Corporate notes and bonds have a rating of at least AA by S&P and Aa by Moody's. Money market mutual funds must trade on a constant net asset value and invest solely in securities otherwise eligible for investment under these guidelines.

Concentration of Credit Risk

Although the intent of the County is to diversify its investment portfolio to avoid incurring unreasonable risks regarding (i) security type, (ii) individual financial institution or issuing entity, and (iii) maturity, the County places no limit on the amount it may invest in any one issuer.

4 Property Taxes Receivable

The County levies real estate taxes on all real property on a fiscal year basis, at a rate enacted by the County Board of Supervisors on the assessed value of property (except public utility property) as determined by the Commissioner of Revenue of Henry County. The Commonwealth of Virginia assesses public utility property. Neither the County nor the Commonwealth of Virginia imposes a limitation on the tax rate. All property is assessed at 100 percent of fair market value and real estate is reassessed every four years. The Commissioner of Revenue prorates billings for property incomplete as of January 1, but completed during the year. Any taxes paid after the due date is subject to a 10 percent penalty and 8 percent interest charge.

Real estate taxes are billed annually and due by December 5. Liens are placed on the property on the date real estate taxes are delinquent, and interest at the rate of 10 percent per annum is added to the delinquent tax and penalty, and must be satisfied prior to the sale or transfer of the property. Any uncollected amounts from previous years' levies are incorporated in the taxes receivable balance.

Personal property tax assessments on tangible business property are based on 71 percent of cost and all motor vehicles are based on 100 percent of loan value of the property as of January 1 of each year. Personal property taxes do not create a lien on property; however, County vehicle decals, which are required by law for all vehicles garaged in the County, may not be issued to any individual having outstanding personal property taxes. Any taxes paid after the due date is subject to a 10 percent penalty and 8 percent interest charge.

Property taxes receivable are included as deferred revenue in the fund financial statements since these taxes are not considered to be available to liquidate liabilities of the current period.

Any uncollected amounts from prior year levies are incorporated in the taxes receivable balance. Under the provisions of the Personal Property Tax Relief Act of 1998 (PPTRA), the County receives taxpayers' payments in fiscal year 2010 from the State for its share of the local personal property tax payment (for personal use motor vehicles), with the remainder collected by the County.

Capital assets are stated at cost, less an allowance for accumulated depreciation. Depreciation expense is computed using the straight-line method over the estimated lives of the assets as follows:

Buildings	15-40 years
Equipment	3-15 years

Capital outlays are reported as expenditures in the governmental funds; however, in the Statement of Activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense.

6 Commitments and Contingencies

A. *Litigation*

The County is contingently liable with respect to lawsuits and other claims which arise in the ordinary course of its operations. It is the opinion of County management and the County Attorney that any losses not covered by insurance, which may ultimately be incurred as a result of the suits and claims, will not be material, except as noted in Item E below.

B. *Federally Assisted Grant Programs*

The County participates in a number of federally assisted grant programs. Although the County has been audited in accordance with the provisions of OMB Circular A-133, these programs remain subject to financial and compliance audits by the grantors or their representatives. Such audits could lead to requests for reimbursements to the grantor agency for expenditures disallowed under terms of the grant. Based on prior experience, County management believes such disallowances, if any, will not be significant.

C. *Performance Agreements*

The County has signed performance agreements with various companies that have located within the County. As part of many of these agreements, the County has agreed to pay cash incentives to the companies. As of June 30, 2010, the County had no outstanding commitments for future payments under these agreements.

D. *Risk Management*

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets, errors and omissions; injuries to employees; and natural disasters. The County joined together with other local governments in Virginia to form the Virginia Municipal Liability Pool and Virginia Association of Counties Group Self-Insurance Risk Pool, both public entity risk pools currently operating as a common risk management and insurance program for participating local governments. The County pays an annual premium to the pool for substantially all of its insurance coverage. In the event of a loss creating a deficit and depletion of all available excess insurance, the pool may assess all members in the proportion which the premium of each bears to the total premiums of all members in the year in which such deficit occurs.

The County continues to carry insurance for all other risks of loss, including employee health, dishonesty, and surety bond insurance coverage. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

E. *Tax Assessment Lawsuits*

The County has several outstanding legal actions against it involving tax assessments. If the County loses the lawsuits, refunds of taxes could approximate \$1.7 million at a maximum.

F. *Component Units*

Beginning in January 2011, the County will become the fiscal agent for the Fieldale Sanitary District. As a result, the District will be a new component unit for fiscal year 2011.

The following Constitutional Officers and County employees are covered by surety bonds issued in the amounts shown as of June 30, 2010:

Treasurer	\$ 750,000
Commissioner of Revenue	3,000
Clerk of Circuit Court	124,000
Sheriff	30,000

C. General Obligation Debt Limit

The Commonwealth of Virginia imposes a legal limit of 10 percent of the assessed valuation of taxable real property on the amount of general obligation borrowing which a County may issue.

The legal debt margin of the County at June 30, 2010 is computed as follows:

Total assessed value of taxed real property	<u>\$ 2,959,808,261</u>
Debt limits per Constitution of Virginia - 10% assessed value	\$ 295,980,826
Amount of debt applicable to debt limit:	
Gross debt	<u>20,382,763</u>
Legal debt margin - June 30, 2010	<u>\$ 275,598,063</u>

Note: Includes all long-term general obligation bonded debt and Literary Fund Loans. Excludes capital leases, landfill closure, postretirement health care benefits, and compensated absences.

D. Long-Term Agreement

The County entered into a long-term agreement with Verizon for construction and renovations made to a tower. The agreement was for \$265,600 and will be paid back over approximately 14 years in lieu of Verizon paying rent. The annual amount is \$19,200.

10 Defined Benefit Pension Plan

A. *Plan Description*

Name of Plan:

Virginia Retirement System (VRS)

Identification of Plan:

Agent and Cost-Sharing Multiple-Employer
Defined Benefit Pension Plan

Administering Entity:

Virginia Retirement System (System)

All full-time, salaried permanent employees of participating employers must participate in the VRS. Benefits vest after five years of service. Employees are eligible for an unreduced retirement benefit at age 65 with 5 years of service (age

60 for participating local law enforcement officers, firefighters, and sheriffs) or at age 50 with at least 30 years of service if elected by the employer (age 50 with at least 25 years of service for participating local law enforcement officers, firefighters, and sheriffs) payable monthly for life in an amount equal to 1.70% of their average final compensation (AFC) for each year of credited service (1.85% for sheriffs and if the employer elects, for other employees in hazardous duty positions receiving enhanced benefits). Benefits are actuarially reduced for retirees who retire prior to becoming eligible for full retirement benefits. In addition, retirees qualify for annual cost-of-living adjustment (COLA) beginning in their second year of retirement. The COLA is limited to 5.00% per year. AFC is defined as the highest consecutive 36 months of reported compensation. Participating local law enforcement officers, firefighters, and sheriffs may receive a monthly benefit supplement if they retire prior to age 65. The VRS also provides death and disability benefits. Title 51.1 of the Code of Virginia (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The System issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of that report may be downloaded from their website at <http://www.varetire.org/Pdf/Publications/2009-Annual-Report.pdf> or obtained by writing to the System's Chief Financial Officer at P. O. Box 2500, Richmond, Virginia 23218-2500.

B. Funding Policy

Plan members are required by Title 51.1 of the Code of Virginia (1950), as amended, to contribute 5.00% of their annual salary to the VRS. This 5.00% member contribution may be assumed by the employer. In addition, the County is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the Code of Virginia and approved by the VRS Board of Trustees. The County's contribution rate for the fiscal year ended 2010 was 7.64% of annual covered payroll. The Component Unit – School Board's contribution rate for non-professional employees for the fiscal year ended 2010 was 8.13% of annual covered payroll. The Component Unit – School Board contributed \$2,497,456 to the teacher cost-sharing pool at a rate of 8.81%.

C. Annual Pension Cost

For fiscal year 2010, the County's and the County School Board non-professionals' annual employer pension cost of \$1,054,459 and \$401,356, respectively, was equal to the County's required and actual contributions.

Three-Year Trend Information for County

	<u>Fiscal Year Ended</u>	<u>*Annual Pension Cost (APC)</u>	<u>Percentage of APC Contributed</u>	<u>Net Pension Obligation</u>
County	June 30, 2008	\$ 952,625	100%	\$ -
	June 30, 2009	1,055,991	100%	-
	June 30, 2010	1,054,459	100%

	June 30, 2009	397,885	100%	-
	June 30, 2010	401,356	100%	-

*Required employer cost only.

The required contribution was determined as part of the June 30, 2007 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2007 included (a) an investment rate of return (net of administrative expenses) of 7.50%, (b) projected salary increases ranging from 3.75% to 5.60% per year for general government employees and 3.50% to 4.75% for employees eligible for enhanced benefits available to law enforcement officers, firefighters, and sheriffs, and (c) a cost-of-living adjustment of 2.50% per year. Both the investment rate of return and the projected salary increases include an inflation component of 2.50%. The actuarial value of the County's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The County's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2007 was 20 years.

D. Funded Status and Funding Progress

As of June 30, 2009, the most recent actuarial valuation date, the plan was 88.76% funded. The actuarial accrued liability for benefits was \$57,302,200, and the actuarial value of assets was \$50,860,620, resulting in an unfunded actuarial accrued liability (UAAL) of \$6,441,580. The covered payroll (annual payroll of active employees covered by the plan) was \$14,020,696, and ratio of the UAAL to the covered payroll was 45.94%.

For the nonprofessional School Board, as of June 30, 2009, the most recent actuarial valuation date, the plan was 90.55% funded. The actuarial accrued liability for benefits was \$17,016,445, and the actuarial value of assets was \$15,408,828, resulting in an unfunded actuarial accrued liability (UAAL) of \$1,607,617. The covered payroll (annual payroll of active employees covered by the plan) was \$5,041,000, and ratio of the UAAL to the covered payroll was 31.89%.

The schedule of funding progress, presented as Required Supplementary Information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability (AAL) for benefits.

11 Landfill Postclosure Care Cost

The County maintains a landfill, which was closed in 1993. In accordance with state and federal laws and regulations, the County placed a final cover on this site and was required to perform certain maintenance and monitoring functions at the site for a minimum of ten years after closure. A high concentration of methane has been detected at the landfill; therefore, the Department of Environmental Quality ("DEQ") has required an additional monitoring period as well as the installation of certain equipment at the landfill for remediation of the high methane concentrations. The County expects the methane monitoring to continue for approximately twenty years. The County is currently in compliance with groundwater protection standards and, as such, DEQ has allowed the County to stop groundwater monitoring.

The \$484,214 reported as landfill postclosure care liability at June 30, 2010 represents what it would cost to perform all postclosure care in 2010. The estimated liability is based on the DEQ accepting the active remedy proposed by the County. If the DEQ does not accept the active remedy, the actual costs may increase. Also, actual costs for postclosure monitoring may change due to inflation, deflation, changes in technology, or changes in regulations. The County intends to fund these costs from general revenues. The County uses the financial test method of demonstrating assurance for postclosure care cost.

12 Revenue Anticipation Note

On January 15, 2009, the County issued revenue anticipation notes, Series 2009 in the amount of \$4,066,000 carrying an interest rate of 2.49 percent. The balance at the end of June 30, 2009 was \$3,896,000. This note has been paid off during fiscal year 2009-2010.

13 Notes Receivable – Component Unit

The Component Unit – Industrial Development Authority had a note receivable from a company in the amount of \$2,998,799 as of June 30, 2010. The Company had been making payments in accordance with a bankruptcy decree from 1999. In 2007 with the Company coming out of bankruptcy and still owing the Industrial Development Authority a substantial amount of money on the note, the County filed a lawsuit against the shareholders, co-obligors of the note. In December 2008, the County, the Company, and co-obligors reached a settlement agreement. This agreement calls for monthly payments beginning January 1, 2009 of \$25,000 plus accrued interest. The County has granted temporary reduction in the amount of \$25,000 at times due to economic conditions, but anticipates this being restored when conditions warrant. The interest rate can vary from 3 to 5 percent depending on the total payments the company makes on an annual basis. The interest rate was at 3 percent but increased to 5 percent in fiscal year 2010. As a part of the agreement, the co-obligors executed documents giving the County a third priority lien and security interest in certain real estate holdings on which the Company operates.

14 Budgets and Budgetary Accounting

Prior to April 18, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them. Public hearings are conducted to obtain citizen comments. Prior to June 30, the budget is legally adopted through passage of an Appropriations Resolution. The Appropriations Resolution places legal restrictions on expenditures at the department level. The appropriation for each department or category can be revised only by the Board of Supervisors. The County Administrator is authorized to transfer budgeted amounts within general government departments; however, the School Board and Henry-Martinsville Social Services are authorized to transfer budgeted amounts within each of their respective budget categories. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).

15 Deferred Revenues

Governmental funds report deferred revenue in connection with receivables for resources that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet recognizable. At the end of the current fiscal year, the various components of deferred revenue and unearned revenue reported in the governmental funds were as follows:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over the estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation.				2,493,194
Construction related to renovation of school buildings is part of the County Primary Government since the debt is in the County name. However, the school building belongs to the County until such time the debt is paid off. The construction activity has to be transferred to the County. COMPLIANCE SECTION

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND
ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Honorable Members of the
Board of Supervisors
County of Henry, Virginia

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of County of Henry, Virginia, as of and for the year ended June 30, 2010, which collectively comprise the County of Henry, Virginia's basic financial statements and have issued our report thereon dated January 21, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia; and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered County of Henry, Virginia's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of County of Henry, Virginia's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County of Henry, Virginia's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether County of Henry, Virginia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, the audit committee, Board of Supervisors, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL
OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

To the Honorable Members of the
Board of Supervisors
County of Henry, Virginia

Compliance

We have audited the compliance of County of Henry, Virginia with the types of compliance requirements described in the U. S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2010. County of Henry, Virginia's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of County of Henry, Virginia's management. Our responsibility is to express an opinion on County of Henry, Virginia's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*; and *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards, OMB Circular A-133, and specifications require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about County of Henry, Virginia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of County of Henry, Virginia's compliance with those requirements.

In our opinion, County of Henry, Virginia complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2010.

Internal Control Over Compliance

The management of County of Henry, Virginia, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered County of Henry, Virginia's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of County of Henry, Virginia's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the audit committee, Board of Supervisors, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

REPORT ON COMPLIANCE WITH COMMONWEALTH OF VIRGINIA'S LAWS, REGULATIONS, CONTRACTS, AND GRANTS

To the Honorable Members of the
Board of Supervisors
County of Henry, Virginia

We have audited the basic financial statements of the County of Henry, Virginia, as of and for the year ended June 30, 2010, and have issued our report thereon dated January 21, 2011.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and *Specifications for Audits of Counties, Cities and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards and specifications require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement.

Compliance with Commonwealth of Virginia's laws, regulations, contracts, and grants applicable to the County of Henry, Virginia, is the responsibility of the County of Henry, Virginia's management. As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we performed tests of the County of Henry, Virginia's compliance with certain provisions of the Commonwealth of Virginia's laws, regulations, contracts, and grants. However, the objective of our audit of the basic financial statements was not to provide an opinion on overall compliance with such provisions. Accordingly, we do not express such an opinion.

The following is a summary of the Commonwealth of Virginia's laws, regulations, contracts, and grants for which we performed tests of compliance:

Code of Virginia

- Budget and Appropriation Laws
- Cash and Investments
- Conflicts of Interest
- Retirement Systems
- Debt Provisions
- Procurement
- Unclaimed Property
- Enhanced 911 Services Tax
- Personal Property Tax Relief Act

State Agency Requirements

- Social Services
- Education
- Comprehensive Services Act Funds
- Economic Development Opportunity Fund

The results of our tests disclosed no instances of noncompliance with the provisions referred to in the preceding paragraph. With respect to items not tested, nothing came to our attention that caused us to believe that the County of Henry, Virginia had not complied, in all material respects, with those provisions.

This report is intended solely for the information of the Board of Supervisors, County of Henry, Virginia's management, the Auditor of Public Accounts and applicable state agencies, and is not intended to be, and should not be, used by anyone other than these specified parties.

Notes to Schedule of Expenditures of Federal Awards

1. *Basis of Presentation*

The accompanying Schedule of Expenditures of Federal Awards includes the Federal grant activity of the County and is presented on GAAP. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements. Benefit payments are paid directly to recipients and are not included in the County's basic financial statements. However, due to the County's involvement in determining eligibility, they are considered federal awards to the County and are included on this schedule.

2. *Commodities – Food Distribution*

Nonmonetary assistance in the form of food distribution amounting to \$220,820 for the schools is reported in the schedule as being received and disbursed.
