Re: Evaluation - Prospective Financial Impact

City of Martinsville's Transition to Town Status

On the attached tabular exhibits please find our evaluation of the prospective financial impact of the City of Martinsville's contemplated transition to Town Status. This report represents our best current understanding of the prospective transition. Although we have discussed with City management and provided materials for review, the materials and assumptions have not been reviewed by City Council. For this reason, the attached may still be considered as a preliminary evaluation. Several issues require further consideration and changes to any of several items could have material effect on the calculated results. We will discuss the findings and critical assumptions in the following narration of the tabular exhibits. Please note that enterprise funds were excluded from the subsequent analysis.

### **TABLE 1 - Summary**

Presented on Table 1 is a summary of the materials developed within the bodies of subsequent tables.

- Tax rates were set to be tax rate neutral for City/Town residents (the cumulative rate for City/Town residents for both county and town taxes equals the current City rate):
  - In comparison to the City of Martinsville, the Town of Martinsville would experience a substantial reduction in operational expenses of approximately \$31.7 million. With the corresponding reduction in other local, state, and federal revenues, to generate the property tax revenues necessary to balance total revenues and operational expenses, all town tax rates were set so that town residents would pay the current city rate when combined with the county tax rate.

RICHMOND OFFICE

401 SOUTHLAKE BOULEVARD

### <u>TABLE 1 – Summary (continued)</u>

- Henry County would need to increase tax rates to cover unfunded additional expenditures:
  - The Henry County would experience an increase in revenues of approximately \$28.7 million and an increase in expenditures of approximately \$30.6 million. A \$0.05 increase in the current real estate tax rate of \$0.555 would provide enough revenue to cover the \$1.9 million shortfall.

### TABLE 2 – Revenues

Generally, the amounts of "City revenues" precluded from a town or no longer associated with a Town offered service have been recognized on a dollar for dollar basis as new revenues of the County.

- Calculations for certain other revenues (Town reductions & County increases) property taxation, local sales tax, charges for services are presented on subsequent tables, as noted.
- City revenues from the State for Constitutional offices have been continued on a dollar for dollar basis as County revenues, pursuant to previous advice from staff of the State Compensation Board and based on the "hold harmless" provision in the Code of Virginia.
- > A net gain in State school aid estimated by the "Davis School Study" of \$66,448 is incorporated.
- In total, the revenues for Town of Martinsville would decrease by approximately \$32.3 million when compared City of Martinsville. Included in the reduction is almost all of the approximately \$4 million contribution from fund balance.
- As noted earlier, the County of Henry is expected to experience a revenue increase of approximately \$28.7 million.

### **TABLE 3 - Expenditures**

As with the revenue analysis, as a general matter, the amounts of "City expenditures" for services no longer performed by the Town but performed by the County have been recognized on a dollar for dollar basis as new expenses of the County.

Staff and expenses for all constitutional offices, save one, are expected to transfer to the County. Two positions from the office of the City Commissioner of the Revenue whose transfer is not supported by the previously performed State Compensation Board analysis are anticipated to be retained within the structure of the Town's Finance Office operations.

### **TABLE 3 – Expenditures (continued)**

- Opportunities for school related cost savings of approximately \$1.25 million noted by the "Davis School Study" are recognized.
- As noted earlier, the Town of Martinsville would expend approximately \$31.7 million less than the City of Martinsville.
- As noted earlier, the Henry County is expected to expend approximately \$30.6 million more after the transition.

### TABLE 4 – Assessed Values & Levy

Current assessed values of locally taxable property, respective tax rates and calculated levy amounts are presented for the City and County. Additionally, budget/levy proportional differences are calculated for the City.

#### TABLE 5 – Adjusted Tax Rates, Levy and Budget Estimates

Additional tax revenues accruing to the County from the addition of Town assessments have been calculated and presented. As previously mentioned, Town tax rates combined with County tax rate equal current City tax rates.

#### **TABLE 6 – Contributions and Charges for Service**

In consultation with City management, adjustments to contributions to local agencies and charges for services have been made and reflected on this table. Any contributions no longer made by the town are recognized dollar for dollar by the County.

### TABLE 7 - Homeowner Impact

In order to cover the shortfall created by the transition, property taxes for a "typical" homeowner with assessed values of \$100,000 in real estate and \$8,000 in personal property are calculated to increase by \$50 or 7.36%. Taxes for Town residents would remain unchanged.

Memo To Mr. Stephen C. Piepgrass Troutman Sanders Re: City of Martinsville Transition June 12, 2019 – Page 4

#### FINAL NOTE - Capital Facilities & Other Matters

No estimates have been made with respect to the cost, if any, of any transfer of general capital facilities. No adjustment has been made for City facilities such as the jail and courthouse that might be expected to be needed by the County. Nor have estimates been made regarding additional office space that might be needed by the County for new employees, particularly for the Constitutional officer employees. Additionally, the county may experience efficiencies and cost savings in the provision of County services to new Town residents by the elimination of certain positions or other expenditures. However, that level of analysis was not performed here.

The exclusion of enterprise funds from the transition analysis causes the FY19 City budget to be unbalanced as displayed. The \$597,698 difference is the total appropriated fund balances of \$1,919,368 less the transfer out of \$1,321,670. Since enterprise funds should be self-funded, it was determined that removing the enterprise funds and their associated appropriated fund balances and transfers provide a better financial picture.

#### SUMMARY OF ANALYSIS

|   |    |             |    | Martinsville |    |            |    |                      |    |                 |    |             |
